T1.0 Annual TB Education Training and Acknowledgement for EI Providers

As per the updated NYS legislation EI agencies and individual providers are required to participate in annual in-service education on TB. The information should include information on the symptoms of active disease, treatment, and testing requirements. Agencies can incorporate annual TB education into in-service training or hold it separately.

The Centers for Disease Control and Prevention (CDC) provides pamphlets and training for Tuberculosis free of charge, meeting the annual education requirement for EI providers and agencies. Providers and agencies must attest to TB education by providing a signature and date of completion. TB Education can be found at the following links:

- Tuberculosis: Get the Facts! [What You Need to Know About Tuberculosis](#)
- Questions & Answers About Tuberculosis [Questions and Answers About Tuberculosis Booklet | Tuberculosis \(TB\) | CDC](#)
- This pamphlet meets the annual education requirements up to page 15.

- Additional TB educational material can be found on the CDC webpage, Pamphlets,
